Vocabulary Strategies and Word Power SIM™ Word Mapping Strategy

Day 1 – Vocabulary Strategies: Word Power SIM™ Word Mapping Strategy: What’s in a word, anyway? Well, it turns out that many words have parts, and knowing what those parts mean enables students to predict the meaning of those words. When this program is used, students learn that words contain prefixes, roots, and suffixes, how to find them, and how to predict the meaning of words containing them. It’s a great addition to any vocabulary-building curriculum.

SIM™ LINCS Strategy:

The LINCS Vocabulary Strategy is a five-step strategy that students can use to remember a vocabulary word and its meaning—now and in the future. The creation of rhyming words, simple stories, and pictures comprise this memory-enhancing strategy that enables students to expand their vocabulary and have fun in the process.

Instructor(s): TBD

Participants will get .6 CEUs

***Special Assistance:** Any individuals requesting accommodations under the Americans with Disabilities Act should contact the support staff before the training.*

****NOTICE****

Call support staff to add your name to the waiting list when institute becomes full.

If payment is not received by June 16, participants will be contacted by support staff via phone and email to confirm payment has been mailed.

On June 30, participants who are on the waiting list will be contacted to confirm attendance and reminded to bring payment to institute.
